

Simple and stylish

Payne Security produces a range of high quality plain lanyards available from stock. With a choice of seven colours and two clip options, there is sure to be an option to meet your needs.

Stock Plain Lanyards

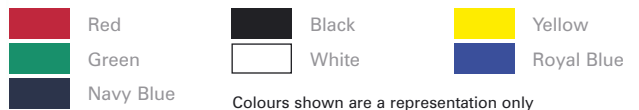

These non-printed lanyards have a breakaway attachment as standard as well as the choice of a plastic or metal hook attachment. Both attachment options are available in the full colour range.

Safety Breakaway

Description	Economy	High Quality
1 Green Lanyard	ALANB0003	ALANB0004
2 White Lanyard	ALANB0011	ALANB0012
3 Black Lanyard	ALANB0001	ALANB0002
4 Red Lanyard	ALANB0006	ALANB0007
5 Royal Blue Lanyard	ALANB0008	ALANB0009
6 Yellow Lanyard	ALANB0013	ALANB0014
7 Navy Blue Lanyard	ALANB0016	ALANB0017

See pages 42 & 43 for Card Holders

Card Attachment Options:

Plastic Hook (Economy)

Metal Hook (High Quality)

See pages 42 & 43 for Card Holders

Payne Security holds a wide range of pre-printed lanyards in stock for use in a variety of applications.

With two types of print available, you can choose either Economy or High Quality lanyards. The economy screen print holds the print on the surface of the lanyard whilst the high quality dye sublimation option embeds the design within the material of the lanyard, offering higher definition print and durability.

*Economy lanyard
(screen printed)*

*High quality lanyard
(dye sublimation)*

Breakaway

Breakaway attachments separate under strain, providing a safety solution, helping to comply with health and safety requirements.

12mm lanyard concave breakaway

16mm lanyard flat breakaway

See pages 42 & 43 for Card Holders

Stock Printed Lanyards

All 12mm stock lanyards feature a metal swivel hook and concave breakaway attachment positioned behind the neck. The 16mm Volunteer lanyard features a flat breakaway, offset at the side.

All trademarks are respected and are the property of their corresponding owners.

Eight Attachment Options

Eight stylish attachments are available including the new mobile phone loop. Crane hook is the standard attachment.

Screen Printed Lanyards

For lower volume requirements (less than 500) we can screen print one colour onto a range of base colours on both 10 and 16mm lace. A contrasting colour to the base stock should be selected for the print colour and this will be printed on top of the base lanyard material.

Samples shown actual size

Pantone Matched Printed Lanyards

Using dye sublimation print onto a white base stock, this process provides a high quality durable finish.

Using this printing method we are able to achieve excellent colour matching to the Pantone colour system. (Minimum order quantity 500 lanyards).

In addition to the screen print and woven options with the Standard range, Payne Security offers a Premium range of customised lanyards with high quality dye-sublimation print. This premium print offers high quality and durability by embedding the print within the material of the lanyard, making it an ideal choice for daily use displaying an ID card.

Both logos and text can be printed in up to four colours, with Pantone matched print available to complement your corporate identity.

Samples shown actual size

All trademarks are respected and are the property of their corresponding owners.

Choose Your Breakaway Option

Breakaway attachments separate under strain, providing a safety solution, helping to comply with health and safety requirements. The breakaway can be positioned behind the neck or offset to the side.

Description	
1	Flat (offset to the side) 10 & 16mm – White
2	Flat (offset to the side) 10 & 16mm – Black
3	Concave (behind the neck) 10 & 16mm – White
4	Concave (behind the neck) 10 & 16mm – Black

Choose Your Card Attachment Option

Using an attachment option from Payne Security you will be able to professionally display your ID cards.

Our wide range of clips, chains and fixings will complement any card or pass and portray a professional, corporate image.

Visitor System

You can create a professional welcome to your visitors and contractors with a cost effective, customised paper based system from Payne Security. Also available are a permit system to help you comply with Health and Safety policies and an Authorised Absence Pass system for pupils and students.

 Please call 0800 970 970 3 to discuss any of the products on these pages

See pages 32-47
for full range of ID
and visitor accessories

Paper Based Visitor System

This system incorporates interleaved paper passes, a carbonated discreet sheet and a journal to record visitor activity.

All components can be custom printed in up to four colours to match your corporate identity, with your relevant health and safety information printed on the journal sheet as well as on every pass.

The system is then completed with a stylish and durable writing board that is easily transportable in the event of an emergency.

Image shown is a representation only

Permit to Work System

Designed to your specification, this permit system ensures that every contractor is aware of your health and safety policy ensuring you comply with health and safety regulations.

Image shown is a representation only

Authorised Absence Passes

Authorised Absence Passes can be issued to students to give them permission to be away from the school campus.

The student's details and reason for absence are written on each pass, which is then copied to the journal sheet ensuring that the school knows how many students are off-site at a given time. If questioned when away from the campus, the student is then able to prove that they have permission to be off-site.

Image shown is a representation only

Turning Technology into Reality

Payne Security is a global concern and one of the world's leading companies in the fields of brand protection, document authentication and personal ID solutions.

As part of Filtrona plc, the UK listed FTSE support services company, we invest continually in our facilities to ensure we remain at the forefront of technology. We strive to provide customers with an extended range of quality products designed to beat counterfeiters and prove personal identity.

Brand Protection

Our products help a wide range of fast moving consumer goods manufacturers to beat counterfeiters. From inks, lacquers, labels, tapes and threads, our overt, covert and forensic technologies are being used by leading domestic and international brands across the food, tobacco, alcohol and pharmaceutical goods markets.

Document Authentication

With over 35 years experience, we have grown in size and developed our capabilities to become one of Europe's leading manufacturers of security laminates, used for the authentication of documents such as Passports and National ID Cards. Over 250 million documents, worldwide have been secured using our technology.

Personal ID

We have a thorough knowledge and a high level of expertise within the ID industry to meet the needs of both public organisations – in the education, health and government sectors – and private businesses alike. Many blue chip companies from the retail, petroleum and logistics industries have been our satisfied customers for many years.
